Mrs. Estella Cotton stopped by our office to ask us to report the close of her 18 months work as head of the W. P. A. Lunch Room project at the B. C. T. S. Mrs. Cotton says that with the aid of Mrs. Lula Barr and Mt. Andrew White, her helpers, and the splendid support given her by Principal C. M. Green and Messrs. Thurmond and Edwards of the school board she has been able to can 1053 quarts of food. She has a variety which includes cabbage, beans, okra, pumpkin, white potatoes, vegetable soup, squash, carrots, peaches, corn, English peas and swiss chard. She says that she is thankful to those who made her job possible as well as to those who helped to make the task easier.
